CONTENTS

1. SMART HOME: MYTH AND REALITY 9
1.1. What makes a home smart today? 10
1.2. The smart home: myth and reality 13
1.3. The impact the smart house has on the design project 21

2. A REVIEW OF SMART HOME MANAGEMENT SYSTEMS 27
2.1. General presentation of the KNX system 28
2.2. LB-Management home management system 45
2.3. eNET Smart Home home management system 56
2.4. Jung Home home management system 66
2.5. Samsung SmartThings management system 77

3. CLIMATE CONTROL, TECHNLOGICAL SYSTEMS 89
3.1. Microclimate 90
3.2. Heating systems 93
3.2.1. Sources of heat 94
3.2.2. Water-based heating systems 97
3.2.3. Controlling water-based heating 101
3.2.4. Electrical radiators 112
3.2.5. Air-based heating systems 122
3.3. Ventilation systems 123
3.3.1. Natural ventilation 124
3.3.2. Mechanical ventilation 125
3.3.3. Hybrid ventilation 125
3.3.4. Controls 125
3.4. Air conditioning (cooling) systems 136

4. SMART HOME LIGHTS 145
4.1. Interior lighting 146
4.1.1. The importance of home illumination to the human being 146
4.1.2. Types of lights 147
4.1.3. Key technical parameters of lights 149
4.1.4. Light optics 151
4.1.5. Colour temperature of lights 153
4.1.6. Human centric lighting 153
4.1.7. Light control methods 155
4.1.8. Addressable design. Scenarios 157
4.1.9. DIM to WARM light adjustment 158
4.1.10. Custom solution 158
4.2. Exterior lighting 160
4.2.1. Exterior lighting for private homes and land lots: principles, rules, and tips 160

4.2.2. Types of light ... 170
4.2.3. Control scenarios ... 171
4.2.4. KNX system integration ... 172
4.3. Lighting control principles ... 174
4.3.1. Main settings of motion sensor parameters ... 178

5. WINDOWS AND BLIND CONTROL ... 191
5.1. Environment and the smart home ... 192
5.2. Curtain, roman shade and blind control ... 195
5.2.1. Curtain control ... 195
5.2.2. Controlling roman shades ... 200
5.2.3. Controlling roller shades and blinds ... 201
5.2.4. Solar irradiation and indoor temperature control ... 209
5.3. Window and skylight control ... 211
5.3.1. Window control ... 211
5.3.2. Skylight control ... 214

6. SECURITY SYSTEMS ... 217
6.1. Types of security systems ... 219
6.1.1. Electronic security systems ... 222
6.1.2. Installation of the security system ... 236
6.2. Video surveillance system ... 237
6.2.1. What constitutes a video surveillance system? ... 238
6.2.2. Types of surveillance cameras ... 238
6.2.3. Video recorder ... 245
6.2.4. Placement of video cameras at home ... 246
6.2.5. Video surveillance and artificial intelligence ... 247
6.2.6. Video surveillance integration with the KNX system ... 249
6.3. Access control management ... 252
6.4. Gate automation ... 257

7. COMFORT EQUIPMENT ... 261
7.1. Audio systems ... 266
7.1.1. Possibilities provided by the audio system in a smart home ... 270
7.1.2. Smart home control using voice assistants ... 272
7.2. TV and home theatre ... 276
7.3. Household appliances in a smart home ... 279
7.4. Smart plumbing ... 284
7.4.1. Quality of drinking water ... 284
7.4.2. Bathroom planning ... 295
7.5. Outdoor comfort equipment ... 296
7.5.1. Lawn mowing and watering ... 296
7.5.2. Smart greenhouses and gardening ... 300
7.5.3. Smart pergolas and terraces ... 301
7.5.4. Swim SPAs and SPA hot tubs ... 305

8. ENERGY SOURCES ... 309
8.1. Solar plants ... 310
8.1.1. Solar modules ... 310
8.1.2. Ways of installation of solar plants on roofs ... 317
8.1.3. Connecting a solar plant to the grid ... 318
8.1.4. Choosing inverters for solar plants ... 321
8.1.5. Choosing optimal power of the solar plant ... 325
8.2. Power capacitors ... 326
8.3. Electric vehicle charging stations ... 330
8.3.1. Types of charging stations ... 331
8.3.2. How to choose a charging station ... 332
8.3.3. Smart functions of charging stations ... 334
8.3.4. Connecting charging stations to the power grid ... 335
8.3.5. Integration of charging stations into the building management system ... 339
8.3.6. Installation of charging stations ... 340
8.4. Energy management ... 341

9. SMART HOME EQUIPMENT ... 345
9.1. Voice-controlled home ... 346
9.2. Tablets and displays ... 350
9.3. Control using radio frequency ... 354
9.4. Servers ... 362
9.4.1 Smart Visu server ... 362
9.4.2 Visu Pro server ... 364
9.5. Cybersecurity ... 366

10. IMPLEMENTED RESIDENTIAL HOUSE DESIGN ... 373
10.1. Smart home idea ... 374
10.2. Smart systems of the implemented house design ... 376
10.2.1. Lighting control ... 380
10.2.2. Window treatment ... 385
10.2.3. Heating ... 387
10.2.4. Ventilation ... 390
10.2.5. Access control ... 392
10.2.6. Other comfort elements ... 394
